

LEO VARGHESE

Senior Full Stack Developer & Cloud Architect

📍 Kochi, India | ✉ leogopuran@gmail.com 🔗 [LinkedIn](#) | 💻 [GitHub](#) | 🌐 [Interactive Portfolio](#)

PROFESSIONAL SUMMARY

Performance-driven Senior Full Stack Developer and AWS Certified Solutions Architect with over 8 years of experience engineering high-throughput, cloud-native applications. Currently driving performance engineering for the Instana observability platform at IBM India Software Labs. Unique blend of deep technical expertise in event-driven microservices (Java/Python/Kafka) and business execution strategy (MBA in Operations Management). Passionate about accelerating the Software Development Life Cycle (SDLC) through Generative AI, the Model Context Protocol (MCP), and integrating Small Language Models (SLMs) into enterprise products. Known as a reliable, cross-functional technical mentor with a strict "performance-first" mindset and a track record of consistent on-time delivery.

CORE COMPETENCIES

- **Backend & Architecture:** Java, Python, SpringBoot, Microservices, Event-Driven Architecture (EDA)
 - **Cloud & DevOps:** Amazon Web Services (AWS), Microsoft Azure, Kubernetes, Containerization, Jenkins, Concourse CI/CD
 - **Data & Streaming:** Apache Kafka, ClickHouse, Elasticsearch, ActiveMQ, AWS SQS
 - **Frontend & UI/UX:** Angular, JavaScript, HTML5, CSS3, Bootstrap
 - **Performance & Operations:** Performance Benchmarking, System Troubleshooting, SDLC Management, Technical Mentorship
 - **Emerging Tech & AI:** AI Tooling Integration, Small Language Models (SLMs), Model Context Protocol (MCP), Vibe Coding, IBM BOB, Google Antigravity
-

PROFESSIONAL EXPERIENCE

IBM India Software Labs | Kochi, India

Senior Full Stack Developer | August 2022 – Present

- Drive core development and architecture for the **Instana** observability tool, with a specialized focus on Performance Engineering.
- Lead architectural design reviews, conduct rigorous performance benchmarking, and troubleshoot complex bottlenecks across highly distributed enterprise workloads.
- Mentor cross-functional engineering teams in Java, Python, and Kubernetes best practices, acting as the "go-to" technical authority to resolve architectural doubts.
- Actively explore and integrate modern AI tooling and paradigms into the development lifecycle to automate code reviews, generate test cases, and enhance product intelligence.

Tata Consultancy Services (TCS) | Kochi, India

IT Analyst | *March 2019 – August 2022*

- Spearheaded massive on-premise to cloud migrations (AWS and Azure) for premier global clients, including **Belgium Post (Bpost)** and **Bayer**.
- Navigated complex, provider-specific cloud limitations to design fault-tolerant, horizontally scalable architectures.
- Architected and deployed highly optimized, event-driven microservice networks utilizing ActiveMQ and AWS SQS.
- Developed responsive, user-centric frontend interfaces and enterprise dashboards using Angular, applying strong UI/UX principles.

IBS Software | Kochi, India**Senior Software Engineer** | *September 2016 – February 2019*

- Engineered high-availability microservices and customer booking web tools within the high-stakes airline domain.
- Delivered critical travel aggregation features for major clients like **Expedia**.
- Aligned rigorous technical deliverables with business outcomes and revenue goals by mastering domain-specific travel and airline logic.

EDUCATION

Master of Business Administration (MBA) in Operations Management *Indira Gandhi National Open University (IGNOU) | 2020 – 2022*

- Leveraged operations principles to master SDLC planning, strategic delegation, and optimal project delivery methodologies.

Bachelor of Technology (BTech) in Computer Science *Adi Shankara Institute of Engineering and Technology | 2012 – 2016*

CERTIFICATIONS & ACHIEVEMENTS

-  **AWS Certified Solutions Architect** (Amazon Web Services)
-  **IBM Certified Container Practitioner** (IBM)
-  **Kerala Startup Mission Certification**
